## FINANCIAL COMMISSIONERS' OFFICE.

### CIRCULAR No. 4.

FINANCIAL COMMISSIONER'S OFFICE,

*Dated Lahore, 30th June 1896.*

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

C. L. TUPPER, Esquire, C.S.

Instructions regarding the use of Service postage stamps by Managers of Courts of Wards and the franking of covers by them "On H. M. S."

IN continuation of this office Circular No. 3, dated the 31st March last, regarding the use of Service postage stamps by Managers of Courts of Wards and the franking of covers by them "On H. M. S.", conveys for guidance the following instructions of the Financial Commissioner.

2. The decision of Government is that when Government officials as such conduct correspondence relating to the affairs of Courts of Wards, that correspondence may be posted with Service postage stamps and superscribed "On H. M. S." If a Government official as such manages an estate under the Court, he will have this privilege. But if his services have been lent to the estate, and he is, therefore, in foreign service as a separate paid manager or employé of the estate, his correspondence connected with its affairs will be treated as private correspondence.

3. The Financial Commissioner accordingly directs that Tahsíldárs, Náib Tahsíldárs and others in the service of Government shall frank their correspondence on Court of Wards affairs with their usual official designations and shall not describe themselves on the covers as Managers of Wards' Estates.

4. As officials in foreign service on wards' estates and non-official Managers will have no authority to frank correspondence "On H. M. S.", the Postal authorities have been desired to treat as private all correspondence purporting to be franked by Managers of Wards' Estates.

By order, &c.,

HARI KISHEN, KAUL,

*(Translated.)* *Junior Secretary to Financial Commissioner, Punjab.*

*The 25th June 1896.*

## APPENDIX I.

Extract paragraph 2 (*a*), (*b*), (*c*), (*d*) and (*e*) from the Proceedings of the Syndicate, dated 14th March 1896.

2 (*a*). The Syndicate next considered the Budget Estimates of the Current, Endowed and other Accounts of the University as well as the Budget Estimates of the Oriental College for 1896-97, which had been prepared by the Board of Accounts and Oriental College Committee, and had previously been circulated among the Members of the Syndicate.

After the Vice-Chancellor had briefly explained the calculations upon which the Estimates for the Current Account had been based, and had indicated the reasons which had led the Board to provide for additional expenditure under certain heads, the consideration of the detailed items on the expenditure side of this Account was taken up.

(*b*) Rai Bahadur Lala Ganga Ram enquired as to the materials asked for by the Principal of the Mayo School of Art for the use of the students of the Engineering Class for which the Board of Accounts had not thought it necessary to make a provision. It was decided to postpone the consideration of the general question as to the provision of such materials until the report of the Sub-Committee appointed to report on the employ of the Mayo-Patiala Reader in connection with the teaching of surveying and drawing in the School of Art had been received.

(*c*) With reference to Sub-Head B II "Encouragement to Literature," it was pointed out that the printing of approved books, *i.e.*, of prescribed text-books in Oriental Languages, could not properly be considered as belonging under this head of expenditure.

It was accordingly decided to transfer this item to Sub-Head V (1) "University Establishment and Miscellaneous Expenses."

A question having been raised by some of the members present as to the propriety of restoring some of the rewards for approved Vernacular works which, it was believed, had in the first years of the University been provided under this head, it was resolved to appoint a Sub-Committee, consisting of Drs. Ewing and Sime, Rai Bahadur P. C. Chatterjee, Babu S. B. Mukerjee, and Mr. Shah Din, to consider this question.

The Registrar was at the same time desired to prepare for the information of the Sub-Committee, a statement showing what expenditure had been provided annually since the establishment of the University under the head of Encouragement to Literature.

(*d*) In connection with the amount provided under VII (4) for the payment of a compassionate gratuity to the late Pandit Guru Prasad's family, the Registrar brought to the notice of the Syndicate the difficulty which had been experienced in ascertaining the proper recipients for the additional gratuity which under the Resolution of the Syndicate, dated 3rd July 1894, 5 (*b*), was to be divided between the two widows of the deceased.

The Syndicate decided to request Rai Bahadur P. C. Chatterjee that he would favour them with his advice on the subject after perusal of the documents which had been submitted by the eldest son of the deceased.

It was also resolved to correct the figure provided under this head from Rs. 700 to Rs. 840 in accordance with the requirements of the above-quoted resolution which had been sanctioned by the Senate.

(e) The Syndicate next considered the Estimates submitted for the other Accounts and approved the proposals of the Board of Accounts with regard to them.

The Budget Estimates of the several University Accounts were then adopted for submission to the Senate, as shown in Appendix, together with the recommendations contained in the Proceedings of the Board of Accounts in connection with these Accounts.

Extract para graphs 3 and 4, from the Syndicate Proceedings, dated 20th March 1896.

3. Read a letter from the Agent, Bank of Bengal, reporting that several of the Government Promissory Notes held in safe custody on behalf of the Special Endowed Trusts and General Endowment Fund needed renewal, and enquiring whether these Notes should be renewed in Notes of the old denominations or consolidated into Notes of larger denominations.

The Syndicate decided, that the Promissory Notes referred to should be renewed and that where more Notes than one relating to the same Trust or Endowment Fund required renewal, these Notes should be consolidated into Notes of larger denominations.

4. The Registrar having communicated a letter from the Agent, Bank of Bengal, stating that the Bank at present could not allow more than 2 per cent. per annum interest on Fixed Deposits, it was resolved that the Senate's permission be obtained to have the Fixed Deposit as shown in the Budget Estimates of the Current Account for 1896-97, converted into Government Promissory Notes bearing 3½ per cent. per annum interest, the amount thus converted to be held to the credit of the same Account.

**Proceedings of the Board of Accounts of the Panjab University at a Meeting held in the Senate Hall, Lahore, on Friday, the 6th March 1896, at 4-30 P. M.**

PRESENT:

| R. E. Hamilton, Esquire, (*Accountant-General, Panjab*). | Rev. J. C R. Ewing, D.D.<br>Dr. M. A. Stein, *Registrar*. |

1. The Board first considered the Estimates of the Oriental College Budget as prepared by the Oriental College Committee, and after scrutiny of the items in which slight modifications against the previous year's Budget had been recommended, resolved to submit these Estimates to the Syndicate for approval.

2. The Board then proceeded to examine the Budget Estimates for the Current Account of the University for 1896-97, of which a draft in print had previously been circulated among the members.

Referring to the items shown on the receipt side, the Board took notice of the diminution by Rs. 1,600 of the income derived from subscriptions owing to the discontinuance of the Ludhiana District and Mandi State subscriptions. The reduction of the income from Government grants-in-aid by Rs. 1,800 on account of the withdrawal of the grant for the Law School was also noted.

The Board satisfied itself in each case by reference to the receipts realized in the closing year and the detailed calculations which had been made as to the expected income for the new financial year that the figures shown for each item were such as could be safely accepted.

3. Turning to the expenditure side, the Board had to consider, with reference to the Resolution of the Syndicate, dated 31st October 1895, a report furnished by the Law Lecturer regarding the estimated cost of maintenance of a Boarding House in connection with the Law School.

It appeared from this report, which was dated 16th December 1894, that in the opinion of the Law Lecturer the house in the compound of the Law School, the rent of which was Rs. 20 per mensem, might be rented for the purpose, and that inasmuch as the accommodation afforded by it was limited, the out-houses of the Law School building might at some expenditure be made available for the residence of students unable to find room in the house. The Law Lecturer at the same time expressed the opinion that, in view of the larger number of boarders which could be expected, it would be preferable, if funds were available, to build both a Law School and a Boarding House.

The *monthly* cost of maintaining a Boarding House in the rented building at present available was estimated as follows :—

| | Rs. |
|---|---|
| (*a*) Pay of the Superintendent ... ... ... ... | 50 |
| (*b*) Rent of the building ... ... ... ... ... | 20 |
| (*c*) Miscellaneous Establishment (Sweeper, Bhisti) | 5 |
| (*d*) Kitchen Establishment ... ... ... ... ... | 25 |
| Total ... | 100 |

Against this expenditnre could be put the income derived from the boarders' fees which would be Re. I per mensem for each boarder.

The Board, after careful consideration in the course of which it was ascertained that only about 40 students would actually find accommodation on the available premises, arrived at the conclusion that, while it would be possible to provide Rs. 60 or even Rs. 100 per mensem for the maintenance, on its first establishment, of a Boarding House, the arrangements proposed in the Law Lecturer's report appear open to the following objections :—

(1) That the house which was proposed to be rented is too small ;

(2) That it appears impossible to obtain any permanent rights or lease for any long period sufficient to justify the expenditure which would be necessary to make the out-houses above mentioned fit for the residence of the boarders ;

(3) That the salary of Rs. 50 per mensem proposed for the Superintendent of the Boarding House seems excessive.

In view of these objections the Board did not think it necessary to include in the Budget Estimates under consideration any provision for the proposed Law School Boarding House.

4. Having regard to the income expected from the Law School (Rs. 22,000) and its large excess over the corresponding expenditure, the Board considered it justified to provide in the case of the salaries of the Law Lecturer and Assistant Law Lecturer the increments of Rs. 50 and Rs. 25 per mensem, respectively, which had been agreed to for the ensuing year by the Senate Resolution, No. 2, dated 16th March 1895, in case the financial condition of the Law School should remain prosperous.

With reference to an application from the Law Reader asking for an increase of the salary, the Board decided that the Syndicate be invited to obtain the opinion of the Law Faculty regarding the claims upon which this request of the Law Reader was based.

5. The Principal of the Mayo School of Art had applied for a special grant to meet the cost of a new Level required by the Mayo-Patiala Reader for the instruction of the Engineering Class and also the cost of Drawing Boards and certain other materials for the use of the students.

The Board was of opinion that the University was not obliged to provide any instruments or materials in connection with the Engineering Class maintained at the Mayo School of Art, except such as were actually required by the Reader himself for purposes of tuition. Accordingly only a sum of Rs. 200 for the purchase of a new Level was included in the estimates.

6. In connection with the provision for the Conduct of Examinations the Board had occasion to consider a resolution of the Arts Faculty, dated 20th February 1896, in which the Faculty, on a motion put forward by the Revd. Mr. Allnutt, had expressed the opinion that the time had come when Superintendents of Arts Examination Centres

should again receive the honoraria for their services, which by the regulations of the University they are entitled to, and that accordingly an estimate be included in the forthcoming Budget.

The Board ascertained that under the existing Rules for the Conduct of Examinations, Principals and Professors of Government and Aided Colleges and Head Masters and Masters of Board and Aided Schools, when acting as Superintendents or Assistant Superintendents at Centres of the Arts and Middle School Examinations, were *not* entitled to separate honoraria as distinct from travelling and halting allowances, and that the payment of such honoraria on the rates referred to by the Arts Faculty would amount in the case of the Arts Examinations alone, to a sum of Rs. 1650 per annum; and if paid also to Middle School Examination Superintendents, whose case in fairness could not be separated from that of the Arts Examination Superintendents, to a total of Rs. 4,950 per annum.

In view of these facts the Board was of opinion that no provision for such honoraria be recommended to the Syndicate, particularly as it was ascertained from the letters of the Registrars of the Allahabad and Calcutta Universities (as shown in the margin) that in both these Universities the duties of Superintendents were performed *gratis by the Heads of Colleges and Schools* at all Arts Examination Centres.

Nos. 152 and 978, dated 5th and 16th February, 1895.

7. Under the head of Registrar's Office Establishment the Board agreed to recommend the provision of the pay, Rs. 15 per mensem, of an additional clerk, a permanent addition to the number of the Clerical Establishment having become indispensible on account of the increase in the number of candidates.

The Registrar laid before the Board the applications received from the Accountant and certain other employes of the University Office for an increase of their salaries. The Board did not see its way to support these applications in view of the fact that the salaries of these employes had either reached the previously indicated maximum only in the closing Budget year or were expected to reach it in the new one.

Having regard to a recent resolution of the Senate regarding the establishment of an Athletic Sports Tournament under the auspices of the University, the Board thought it desirable to provide provisionally the sum of Rs. 1,200 for the purposes of this Tournament.

8. The items of expenditure for the Current Account having been thoroughly tested by the Board, it was resolved that the Estimates submitted by the Registrar be recommended to the Syndicate for adoption with the above modifications and with brief explanatory notes where necessary.

9. In regard to ways and means of the Current Account the Board noted that the expected excess of the estimated income over the estimated expenditure was only Rs. 600. But the floating balance expected to be available at the beginning of the new financial year, was sufficiently large to permit a sum of Rs. 10,000 to be added from this Account, as under the previous Budget, to the Fixed Deposit intended as a Reserve Fund bearing 2½ per cent. interest. The remainder of the Bank balance was in the Board's opinion indispensible to provide for the heavy expenditure on account of the Examiner's Fees, &c, which had to be met in the early part of the year, while the corresponding receipts could not be realized until several months later.

10. With reference to the Estimates for the Endowed Trusts, the Board desired to recommend that the credit balances available in the case of the Trusts Nos. 1, 7, 8, 9, 10, 11, 17, 18, 20, 21 and 28 be invested as far as possible in Government Promissory Notes during the new Financial year. As a recent investment of such credit balance in the case of the Aitchison-Ram Rattan Sanskrit Scholarship Trust had considerably added to the income of this Trust, the Board was in a position to recommend that the scholarships hitherto maintained from this endowment at the rate of Rs. 14 and Rs. 22 per mensem, respectively, be raised to Rs. 15 and Rs. 24 per mensem.

The Estimates for the Special Endowed Trusts thus revised and for the remaining Accounts of the University were then adopted for submission to the Syndicate and Senate.

11. Finally it was resolved that Dr. Ewing, as member of the Board of Accounts, be requested to see and sign on behalf of the Board the Account Books submitted by the Registrar.

Extract paragraphs 1 and 2 from the Proceedings of the Oriental College Committee, dated 6th March 1896.

1. The Budget Estimates for 1896-97 of the Oriental College, which had been prepared with reference to the provisions made in the last Estimates, were carefully considered by the Committee.

On the recommendation of the Principal, Oriental College, it was resolved to reduce the amounts hitherto provided for stipends in the Sanskrit and Arabic College Departments from Rs. 42 to Rs. 40 per mensem, and to utilize the saving thus effected for raising the corresponding provision in the Persian Department, which appeared insufficient, from Rs. 21 to Rs. 25 per mensem. After some remarks and explanations by the Vice-Chancellor, who pointed out that the slight increase (Rs. 125) against the estimated expenditure of the last Budget year was due only to the increments previously sanctioned by the Senate in the case of two teachers, the Committee resolved to recommend the Budget Estimates framed on the above lines, as shown in the Appendix, to the Syndicate for adoption.

2. An application for increase of pay by Maulvi Momin Ali, 1st Arabic Teacher, School Department, was laid before the Committee, having been forwarded by the Principal. The Committee did not see its way to agree to this request, particularly in view of the fact that the pay of this teacher (Rs. 35 per mensem) was already in excess of that provided for the corresponding post of the Sanskrit Department.

With reference to a similar application which had been received from the Clerk, Oriental College, the Principal took occasion to call the Committee's attention to the very valuable services which this employé had rendered since his appointment in 1889, and the important and responsible character and duties entrusted to him in connection with the management of the College.

The Committee, while recording its appreciation of the efficient manner in which the Clerk had carried on the duties of his post, deferred the consideration of his application until the next Budget year, in view of the fact that an increase of pay had already been granted to him in 1894.

## APPENDIX III.

**Extract, paragraph 5 from the Syndicate Proceedings, dated 14th March 1896.**

5. In connection with the Senate Resolution, dated 23rd February 1895, placing he services of Dr. Stein at the disposal of the Kashmir State for literary work in Kashmir uring the months of June and July 1896, it was resolved to recommend to the Senate that he same arrangements be made for carrying on Dr. Stein's duties as Registrar of the University and Principal of the Oriental College during his absence which had been made for the corresponding period of last year under the Senate's sanction (see Syndicate Proceedings, 12th March 1895, paragraph 2, and Senate Proceedings dated 3rd January 1896, paragraph 10).

## APPENDIX IV.

**Extract, paragraph 1 from the Syndicate Proceedings, dated 12th March 1895.**

1. The Vice-Chancellor in laying before the meeting a proposal relating to the establishment of University Athletic Sports expressed his opinion that the time had arrived when it would be desirable for the University to emphasize the necessity of combining higher mental attainments with sound physical training; he thought further that the institution proposed would also be of great value as a means of drawing the Collegiate Institutions of the Province closer to the common body of the University. After the Vice-Chancellor had pointed out that, the general purpose of the University being to promote higher education in the Province, arrangements for the encouragement of physical training would seem to come within its proper sphere of activity, and Dr. Sime, Dr. Ewing and several others of the members present had given expression to their gratification at the proposed departure, the Syndicate recorded its opinion that under Statute VII (*g*) the University was authorized to devote a part of its current income for the encouragement of Athletic Sports as coming under the head of higher education, for the promotion of which the University was constituted.

It was accordingly resolved to recommend to the Senate—

(*i*) That Athletic Sports, to be called the "Panjab University Athletic Sports Tournament" be instituted, to be held annually at Lahore, and to be open to all members of the University who have passed the Entrance Examination and whose names at the time of competing are kept on the rolls of the following Institutions:—

1. Oriental College, Lahore;
2. Government College, Lahore;
3. St. Stephen's College, Delhi;
4. Forman College, Lahore;
5. Dayanand Anglo-Vedic College, Lahore;
6. Municipal Board College, Amritsar;
7. Scotch Mission College, Sialkot;
8. Mahindra College, Patiala;
9. Egerton College, Bahawalpur;
10. Law School, Lahore;
11. Medical College, Lahore;

(*ii*) That a sum of Rs. 500 be provisionally provided from the Current Account of the University for the purpose of meeting the general expenses of the Annual Tournament;

(*iii*) That a permanent Committee to consist of —

The Director of Public Instruction, Panjab, as *President*,

The Heads of the Institutions named under (*i*) and the Registrar,

be appointed to draw up Rules for the Tournament, to settle the detailed organization of the Sports, and to manage generally all business relating to the Tournament.

This Committee to be authorized to add to their numbers, to form Sub-Committees for special purposes, and to appoint a Secretary, also to invite subscriptions towards general expenses and special prizes.

The Vice-Chancellor then communicated to the meeting his desire of presenting a Shield or Cup to be offered as a Prize for the Cricket Tournament under the conditions to be laid down by the Committee.

On the proposal of Mr. T. G. Walker, seconded by Dr. Sime, the meeting passed unanimously a vote of thanks to Sir William H. Rattigan for this generous offer, and recorded its high appreciation of the valuable service he had rendered to the University by bringing forward the proposal above stated, and by coupling it with the offer of his Prize.

---

Proceedings of the Sub-Committee appointed with reference to Senate Resolution No. 19 of 3rd January 1895 to draw up definite proposals regarding the Athletic Sports Tournament at a meeting held on the 16th March 1896, 4-30 P. M., in the Senate Hall, Lahore.

PRESENT:

C. A. Roe, Esq., M. A., C. S., *Vice-Chancellor, in the Chair.*

J. Sime, Esq., LL. D. | P. G. Dallinger, Esq., B. A.
Rev. J. C. R. Ewing, D. D. | Pandit Hari Kishan Kaul, M. A.
Dr. M. A. Stein.

1. The Sub-Committee are of opinion that the ultimate object of the University's connection with Athletic Sports should be to enable these Sports to be carried on by independent bodies and on an independent footing.

2. That it is impossible for them to be started on this footing, and that the University should, therefore, undertake the direct management of the Tournament for a period of five years; that after the financial year 1896-97, for which the sum of Rs. 1,200 has been provided, a sum of Rs. 1,000 per annum should be entered in the Annual Budget for this purpose; that the General Committee for the general management of this Tournament should remain as fixed by Resolution No. 1 of the Syndicate, dated 12th March 1895, subject to the proviso that the number of added members should not exceed *eight*.

3. That the financial control, that is the allotment and expenditure of the Budget Grant, should rest with a smaller Committee composed solely of members of the Senate.

4. That this smaller Committee should consist of —

Drs. Sime and Ewing, Mr. Dallinger, Dr. Orbison and Pandit Hari Kishan Kaul.

C. A. ROE,

DIRECTIONS IN REGARD TO ATTACHED PROPERTY.

I.—No person can be compelled by the Court or attaching officer thereof to take charge of attached property as "sipurddár" or receiver.

II.—A "sipurddár" or receiver may at any time terminate his responsibilities by giving notice to the Court of his desire to be relieved of his trust, and delivering to the proper officer of the Court the property made over to him.

III.—When any property is taken back from a "sipurddár" or receiver, he should be granted a receipt for the same.

IV.—When property is made over to a "sipurddár" or receiver, a sipurdnáma and schedule of property should be drawn up in duplicate, dated and signed by—

(*a*) the sipurddár or receiver ;

(*b*) the officer of the Court who made the attachment ;

(*c*) the person whose property is attached and made over ;

(*d*) two respectable witnesses.

One copy will be transmitted to the Court by the attaching officer, and placed on the file ; the other copy will be made over to the person whose property is attached.

V.—If the property attached is of a perishable nature, and cannot be sold forthwith, proper arrangements should be made for storing and protecting it; pending the orders of the Court, which should be applied for and given without delay.

VI.—In regard to live-stock the following directions apply :—

(a). The "sipurddár" or receiver is bound to take all reasonable and proper care of any animal entrusted to him.

(b). The "sipurddár" or receiver is responsible for the value of any animal which he fails to deliver to the Court, or its authorised officer, when required so to do. If any animal is lost, or stolen, or dies, while in the hands of a "sipurddár" or receiver, such a "sipurddár" or receiver is bound to satisfy the Court that its loss or death was not due to his fault or neglect.

(c). The owner of any attached animal may be permitted to provide it with food while it is under attachment (whether in the hands of a "sipurddár" or receiver, or officer of the Court), and in the case of milch cows, &c., to take the milk.

(d). The Court is required to take proper measures to provide the "sipurddár" or receiver with the necessary funds for feeding and caring for animals made over to him.

VII.—The expenses incurred in the care, custody and keep of attached property (as taxed by the Court) should be a first charge on the sale proceeds thereof, but, pending sale, the attaching decree-holder should be required to advance sums required for the purpose.

B.

RULES FOR THE GUIDANCE OF JUDGING COMMITTEES OF DISTRICT HORSE SHOWS.

I.—Only *boná fide* horse-breeders of the districts named will be allowed to compete for the above prizes. The Judging Committee will decide as to the eligibility of competitors.

II.—A branded mare of 3 years of age, in foal or with foal at foot, the result of having been covered before 3 years of age, will not be eligible to compete. As foals are usually weaned at the age of six months, branded mares with foals at foot by Government stallions will not be eligible to compete in Class I (*b*) after the foal in question has attained that age. Foals over 6 and under 12 months old may compete in Class VI.

III.—Branded mares proved to be barren, *i. e.* mares that have not held to Government stallions for the last two years, will not be eligible to compete.

IV.—No mares or stock will be allowed to compete as "served by Government stallion," or "got by Government stallions," unless a certificate to that effect is produced by the exhibitor. These certificates are obtainable from Officers in charge of stallions.

V.—Branded fillies (Class II) if out of branded mares by Government stallions may also compete in "Class III, Fillies."

VI.—Geldings (Class VI) if out of branded mares by Government stallions may also compete in "Class V, Yeareings" (Colts) and in "Class IV, Remounts," if *purchased* at the Show for Government, Army and Police purposes.

VII.—Intending exhibitors should, on arrival at the Show, apply to the Secretary of the Judging Committee for a ticket or tickets as the case may be, stating the class in which they propose to compete.

VIII.—Each ticket will be worn by the animal as a token of the right to compete.

IX.—When the tickets are given, the Secretary will name the date, hour and place at the Show when and where horses should be brought for examination. A shamiana, or large tent, or shed, to afford shade to the Committee, within a temporary rail enclosure, should be erected to allow of the Members to carefully examine the stock. The public should not be permitted to enter the enclosure during the Committee's proceedings.

X.—Prizes will be awarded on the day appointed by the President of the Judging Committee.

XI.—A certificate (parwána) will be given to each winner, whether he takes his prizes in money, khillat, or medal, as he may think best.

XII.—Endeavours will be made for the appointment of Judging Committees composed of Military Officers; failing which it will be locally arranged to obtain the services of Officers attending the Show to act as Judges—

The Deputy Commissioner or Collector of the district will *ex officio* be President; and the Superintendent, Civil Veterinary Department, will act as one of the judges in the absence of a Veterinary Officer belonging to the Army Veterinary Department.

XIII.—Discretion is to be used by the Judging Committee in awarding only a portion of prizes to any class if the stock of that class be not considered worthy of all prizes noted; and the money not awarded may be devoted to the giving of extra prizes in other classes deemed by the Judging Committee as worthy of them, as it is the desire of Government to award the total sum granted, provided any of the classes of stock competing are in any way worthy of it. Discretion is also to be exercised by the Judging Committee to reduce the value of the bigger prizes, and to and smaller ones, in classes where the numbers competing are large.

XIV.—The system of judging the animals competing is left to the discretion of the Committee; but practical soundness in a horse shall however, be the *sine qua non* for taking a prize. and should not merely count equally with other points of merit. Should any branded mares or fillies be affected with any unsoundness which may be considered hereditary, they will be debarred from the receipt of any prizes.

NOTE.—1. To enable a horse to become eligible to compete in the "Gelding" class, both testicles must have been excised.

2. The prizes allotted to the "Gelding" class are to be invariably awarded to the best competing. Prizes in this class to be awarded only to stock that have been castrated when in possession of their present owners, *boná-fide* horse-breeders, and provided the Judging Committee are satisfied the animals have been castrated with a view of competing for the prizes.

3. In the North-Western Provinces approved mares and fillies were up to the year 1877 branded V R; since that time they have been branded V. I. In the Punjab approved mares and fillies were up to the year 1885 branded B. M; since that time they have also been branded V. I. In the Bombay Presidency, Sindh and Bilúchistán approved mares and fillies are branded  The brand will be found either on the off or near shoulder, or on the saddle place.

4. In case of Remounts not being purchased for one branch of the service of the class for which prizes are offered, the prizes for that class will be added to the prizes offered for Remounts of the other branch of the service. For instance, if no Remounts over 3 years of age are bought for the British service, the prizes will be added to Native Cavalry Remounts over 3 years of age, and *vice versá*. None but Remounts purchased from *boná-fide* breeders will be allowed to compete in these classes. The Judging Committee to decide whether the owners of the animals competing are *boná-fide* breeders or not.

5. It has been found that in districts where private Studs are maintained by comparatively rich men several prizes in the same class are, in many cases, awarded to the same owner, and the poorer breeders do not receive so many prizes as they otherwise would; it is therefore ruled that each private Stud competing be restricted to only one prize in each class.

6. In such districts where stallions have been provided by District Boards and Courts of Wards, or are kept by Native gentlemen, and such stallions have been approved by the Officers of the Civil Veterinary Department, prizes shall be awarded from funds subscribed either by District Boards, Provincial, or other sources other than Imperial, and that funds be allotted to the following classes :—

Mares in foal to such stallions.
Mares with foals at foot by such stallions.
Young stock by such stallions.

The ages of the latter class to be left to the discretion of the Judging Committee, so as to best suit each particular district.

7. The following Rule to be observed in ageing horse and mule stock competing for prizes :—

| | |
|---|---|
| "Foal at foot" ... ... | From date of birth to 6 months old. |
| "Foal" ... ... | Over 6 and under 12 months old. |
| "Yearling" ... ... | 12 months to under 24 months old. |
| "Two years old" ... ... | 24 months to under 36 months old, and so on. |

# FINANCIAL COMMISSIONERS' OFFICE.

*October 1896.*

**CIRCULAR No. 63, paragraph 11, page** [illegible]

For every assessment circle, or, in case the assessment circles should be very large, for a tahsil, an abstract village note-book will in future be kept up. The form of headings will be that given below, and the rulings will be printed in diglot and the figures in English. Everything in this village register already kept up, with the single exception of column "Revenue remarks," the figures for which must be obtained from the Patwari's Naksha, which begins with the statistics of each village in the manner prescribed by the Director, Land Records and Agriculture. The abstract forms to be filled in by the Patwari with his village registers, abstracts to the office Kanungo.

The office Kánúngo will in all cases enter the figures in these abstracts in acres. The book will contain space for 10 years.

It must be clearly understood that these abstracts are by no means intended to supersede the detailed village note-books. They will enable the Deputy Commissioner and his Revenue Assistant to see at a glance what villages seem to require to have their circumstances carefully enquired into, but such further enquiry can of course only be conducted after full examination of the detailed village note-book in each case.

It is hoped that when the Deputy Commissioner or Revenue Assistants are in camp, they will take with them the abstracts of the assessment circle in which they are marching, and can fully consider the statistics of each village of the circle while marching through it.

As regards the remarks to be recorded in these abstracts, they should be as concise as possible, and should only be made by the Deputy Commissioner himself or the Revenue Assistant (when he possesses a competent knowledge of English) or an experienced Assistant Commissioner who is specially authorised by the Deputy Commissioner in that behalf.

It will be seen that the additional work involved in the preparation of these abstracts will practically only fall on tahsil office Kánúngos. It may be necessary to give the office Kánúngo assistance for this purpose in some of the heavier tahsils in the shape of an assistant on Rs. 14 per mensem, and the Financial Commissioner will be prepared to consider applications to this effect, but real necessity must be shown in support of any such application.

CIRCULAR No. 63, paragraph 11, page 833, add:—

For every assessment circle, or, in case the assessment circles should be very large, for a suitable number of villages, an abstract village note-book will in future be kept up. The form of headings will be that given below,* and these headings will be printed in biglot and the figures will be filled in by the tahsíl office Kánúngos in English numerals. Everything in this form can be obtained by excerptions from the village registers already kept up, with the single exception of column "Revenue remitted," the figures for which must be obtained from the Wásil-Báki-Navís. Blank sheets will be inserted for remarks after the statistics of each village. These books will be supplied on indent by the Director, Land Records and Agriculture, who will also supply printed abstract forms to be filled in by the Patwári for each village in his circle and forwarded with his village register abstracts to the office Kánúngo.

* Copy attached.

The office Kánúngo will in all cases enter the figures in these abstracts in acres. The books will contain space for 20 years.

It must be clearly understood that these abstracts are by no means intended to supersede the present village note-books. They will enable the Deputy Commissioner and his Revenue Assistant to see at a glance what villages seem to require to have their circumstances carefully enquired into, but such further necessary enquiries can of course only be conducted after full examination of the detailed village note-book in each case.

It is hoped that when the Deputy Commissioner or any of his Assistants are in camp, they will take with them the abstracts of the assessment circle in which they are marching, and can fully consider the statistics of each village of the circle while marching through it.

Government of India, Finance and Commerce Department, Resolution No. 3469 A., dated 12th August 1896.

"7. In giving notice of the award under Section 12 (2) and tendering payment under Section 31 (1) to such of the persons interested as were not present personally or by their representatives when the award was made, the officer shall require them to appear personally or by representatives by a certain date, to receive payment of the compensation awarded to them, intimating also that no interest will be allowed to them if they fail to appear. If they do not appear, and do not apply for a reference to the Civil Court under Section 18, the officer shall, after any further endeavour to secure their attendance that may seem desirable, cause the amounts due to be paid into the Treasury as revenue deposits payable to the persons to whom they are respectively due, and vouched for in the accompanying Form (marked E). The officer shall also give notice to the payees of such deposits, specifying the treasury in which the deposits have been made. When the payees ultimately claim payment of sums placed on deposit, the amounts will be paid to them in the same manner as ordinary revenue deposits. The officer should, as far as possible, arrange to make the payments due in or near the village to which the payees belong, in order that the number of undisbursed sums to be placed in deposit on account of non-attendance may be reduced to a minimum. Whenever payment is claimed through a representative, whether before or after deposit of the amount awarded, such representatives must show legal authority for receiving the compensation on behalf of his principal."

The draft will be taken into consideration by the Financial Commissioner on or after the 1st day of December 1896, and any objections and suggestions which may be submitted to the Financial Commissioner before that date will be considered :—

*Existing Rule* 9.

" When the office of Patwári is vacant in any circle, whether temporarily or permanently, it shall be filled up by selection from the register of candidates of the tahsíl in which the vacancy occurs, or, if necessary, by selection from the registers of other adjacent tahsíls, regard being had to the following considerations :—

(*i*) If there is any passed candidate on the register with a claim to succeed to the vacancy as son or brother of the previous Patwári, his claim shall be first considered. But the Collector may, for reasons to be recorded by him, disallow this claim. The preference thus allowed does not arise, unless the previous Patwári took his office by inheritance or held it for ten years ; and no preference shall be allowed to the son or brother of a Patwári dismissed for misconduct.

*Proposed Rule* 9.

When the office of Patwári is vacant in any circle, whether temporarily or permanently, it shall be filled by selection from the register of candidates of the tahsíl in which the vacancy occurs, or, if necessary, by selection from the registers of other adjacent tahsíls, regard being had to the following considerations :—

(*i*) Relationship of any kind to the late Patwári shall confer no claim to succession to the vacant post. The most suitable candidate shall be appointed. Provided that in the case of vacancies occurring before 1st January 1902 when the late Patwári was appointed before 1st January 1897, the claims of a son or brother of the late Patwári shall be first considered, but the Collector shall not be bound to appoint such a candidate if he considers another more suitable, and no preference whatever shall be recognised unless the previous Patwári took office by inheritance or held it for ten years. And no preference shall be allowed to the son or brother of a Patwári dismissed for misconduct.

*Existing Rule* 9.

(*ii*) Failing the acceptance of any claim of the nature last referred to, the most suitable passed candidate shall be appointed. In making such appointments the Collector shall consider the circumstances of the vacancy and of the villages comprising the circle in which it has occurred. No particular class of men should be allowed to absorb too many Patwáriships. A candidate otherwise suitable may be passed over on the ground that his father or relations make their living by lending money to the agriculturists of the circle or its vicinity, or for some similar circumstances likely to affect the Patwári unfavorably in the performance of his duties, and such preference as is practicable shall be given to those passed candidates who are better educated than others.

(*iii*) Candidates who have not passed the Patwari Examination shall not be appointed except when—no passed candidate being available—the Collector considers the appointment of an unpassed candidate unavoidable. Appointments made under this clause shall be temporary only, and a Patwári so appointed shall be dismissed unless he passes the Patwári Examination within two years after date of appointment."

*Proposed Rule* 9.

(*ii*) In making such appointments the Collector shall consider the circumstances of the vacancy and of the villages comprising the circle in which it has occurred. No particular class of men should be allowed to absorb too many Patwáriships. As many Patwárís as is found possible should be appointed from the agricultural classes. A candidate otherwise suitable may be passed over on the ground that his father or his relations make their living by lending money to the agriculturists of the circle or its vicinity, or for some similar circumstances likely to affect the Patwári unfavorably in the performance of his duties. And such preference as is practicable shall be given to those passed candidates who are better educated than others.

(*iii*) Candidates who have not passed the Patwári Examination shall not be appointed, except when—no passed candidate being available—the Collector considers the appointment of an unpassed candidate unavoidable. Appointments made under this clause shall be temporary only, and a Patwári so appointed shall be dismissed unless he passes the Patwári Examination within two years after date of appointment.

## PUNJAB PUBLIC LIBRARY.

Proceedings of a meeting of the Committee held on Saturday, the 12th September 1896, at 8 A.M.

PRESENT:

J. A. Sinclair, Esquire, Barrister-at-Law, *Chairman.*

Reverend H. J. Spence Gray, M. A.

J. S. Brown, Esquire.

Rái Bahádur Ganga Rám, C. E.

Lála Ganpat Rái.

Lála Kunj Behári Thapar.

Bhái Jowáhir Singh.

H. T. Knowlton, Esquire, *Secretary.*

1. The accounts for July and August were examined and passed.

2. *Report of the Special Committee appointed by His Honor the Lieutenant-Governor to enquire into the income and expenditure of the Library and other matters connected with the Institution*—This was now carefully considered, and the Secretary was instructed to thank the gentlemen composing the Committee appointed by His Honor, for the useful suggestions made by them for the improvement of the Library. In accordance with those suggestions it was decided:—

(1) That the Lahore Municipal Committee should be asked to increase its annual subscription;

(2) That the District Boards of all districts from which there are 30 or more students studying in the Lahore Colleges, should be asked to subscribe to the Library;

(3) That Branch Libraries should be established and the District Boards asked to assist with donations to defray the cost of establishing such libraries;

(4) That a prospectus should be published monthly in the *Punjab Gazette*;

(5) That the post of paid Secretary should not be abolished.

3 With regard to the suggested alterations in the Rules, the Committee were of opinion that the adoption of the proposal regarding 'student subscribers' would ultimately result in a loss of income, but that the other suggestions might be adopted with advantage. It was therefore decided—

(*a*) That in lieu of the annual subscription the composition fee should be increased to Rs. 50;

(*b*) That the deposit of Rs. 10 should not be required from Government servants, Barristers, Pleaders, and others approved of by the Committee;

(*c*) That subscribers should be allowed to take out 10 books at a time;

(*d*) That, except in the case of recent publications and books in great demand, subscribers should be allowed to retain books for two months.

4. Taking into account the number of books now published and the demand for current literature, the Committee were of opinion that the library could not be considered in a state of efficiency till at least Rs. 1,500 per annum were expended on the purchase of new books.

H. T. KNOWLTON,

*Offg. Secretary, Punjab Public Library.*

## FINANCIAL COMMISSIONERS' OFFICE.

**Addenda and Corrigenda to Punjab Revenue Circulars.**

*The* 12*th November* 1896.

No. 616.

Pages 165-6. For Correction Slip No. 290 substitute the following :—

2. The above are somewhat modified by the following instructions which received the sanction of the Government of India in 1893.

*Preliminary.*

1. Under the provisions of Section 49 of the Punjab Land Revenue Act, 1887, the general re-assessment of a district or tahsíl cannot be undertaken without the previous sanction of the Government of India.

2. When applying for such sanction the Local Government will submit a forecast of the expected financial results of the re-assessment. The forecast will show, by tahsíls, the revenue rates upon which the expiring assessment was based, the actual amount of the existing land revenue, and the increase expected to result from the proposed re-assessment and the general grounds on which the estimate of the increase is based.

3. Should the re-assessment of a tahsíl as finally arranged fall short of the forecast as accepted by the Government of India by more than 15 per cent., the instructions of the Government of India must be taken before the re-assessment is actually announced, unless the deficiency is covered by a surplus in other tahsíls already assessed under the same sanction.

*General principles.*

4. The fundamental principle of land revenue assessment is that, according to the ancient custom of the country, Government is entitled to a share of the produce of the land from time to time to be fixed by itself. The exact share to be taken is a question to be settled separately for each tract and estate under assessment according to the circumstances of the case.

5. Unless the Local Government has, under Section 48 (2) of the Land Revenue Act, 1887, otherwise directed, or unless a fluctuating system of assessment has been ordered by the Local Government, the Government share of the produce must be assessed in cash at a fixed amount for each estate for a term of years.

6. The "net assets" of an estate mean the average surplus which the estate may yield after deduction of the expenses of cultivation including profits of stock and wages of labour. (See Directions to Settlement Officers, Section 52.) A full fair rent paid by a tenant-at-will, though sometimes falling short of the net assets, may generally, in practice and for purposes of assessment, be taken as a sufficiently near approximation to them on the land for which it is paid. When, therefore, the entire land of a tract is let to such tenants paying such a rent, the "net assets" of the tract can be easily calculated, if the tenants pay rent in cash. If the rents are produce rents fixed in quantity the calculation becomes more difficult on account of inevitable variations in price over a term of years. If the rents are produce rents fixed as a share of the crop the difficulty becomes greater still, as both character, quantity and price will vary. In most districts of the Punjab difficulties of this latter kind are met with, and an additional difficulty lies in the fact that a large proportion of the cultivated land is not let to tenants but cultivated by the petty proprietors themselves. The calculation then becomes not only difficult but hypothetical, and the results of greater uncertainty and less value.

7. The assessment of an estate will be fixed according to circumstances, but must not exceed half the value of the net assets.

8. The tract under re-assessment will be divided into assessment circles in accordance with the detailed instructions in the Revenue Circulars. When submitting an assessment report for a tahsíl or other area the assessing officer will state, for each circle, the value of the half net assets as calculated by him, and also the amount of the re-assessment which he proposes for adoption in practice and the detailed rates by which he proposes to distribute it over the different classes of land. He will explain how the half net assets have been calculated, and his reasons for the actual re-assessment and rates which he proposes to adopt. He will give this information in such form and with such additional particulars as the Revenue Circulars may prescribe. Any lower assessment than half the net assets should be justified.

9. Before conveying sanction under Section 50 (2) of the Land Revenue Act to the assessment proposed by the assessing officer, the Financial Commissioner shall submit the Settlement Officer's report, with the Commissioner's review, and the orders which he

proposes to pass thereupon for the approval of the Local Government. The assessing officer is expected to realize the amount fixed by the orders passed on the assessment report *for the circle* within a margin of 3 per cent. either way. If he thinks greater deviation desirable he must refer the matter for further orders before announcing his re-assessments. In the assessment of *particular estates* the assessing officer is allowed to assess above or below rates at his discretion subject to the detailed instructions in the Revenue Circulars.

10. No re-assessment is to be fixed for more than 20 years except with the permission of the Government of India.

*Rule* 15—

*For* latter part of the rule beginning with the sentence "If any of them appear objectionable" *substitute* the following :—

If any of them appear objectionable he will still include them in the *consolidated receipt*, but will note them for recovery. The amounts so noted when they do not represent payments in excess of the amounts previously sanctioned by the Executive Engineer will be included by the Deputy Commissioner in the amount entered as "Retrenched by Canal Officer or Collector" in Form No. VI for the month in which the amounts are noted for recovery, while the recoveries will in all cases be shown by him as minus entries in the column headed "Paid during the month" in Form No. VI for the month in which the recoveries are made. Among legitimate grounds of objection will be failure to pay in the amount due within the period prescribed, when retrenchment on this account has not already been made by the Deputy Commissioner. The consolidated receipt which will be for the net amount entered in the column headed "Paid during the month" should be forwarded with as little delay as possible after receipt of the original vouchers. A memorandum acknowledging the number of vouchers received should be given at once to save any chance of disagreement.

*Rule* 31—

*Expunge* the words "or to the retrenchment of fees previously paid (see Rule 15)."

Also *expunge* the words "or fees" between the words "such remissions" and "subsequent to."

## No. 618.

*The 14th November* 1896.

Page 518. Revenue Circular No. 50 to be added to Correction Slip 514.

The following additional instructions, prescribed by Punjab Government Circular No. $\frac{19}{784}$, dated the 19th October 1896, to regulate the procedure to be adopted during the preliminary investigation regarding such boundary disputes, must be strictly complied with.

* * * * * * * *

2. Where the portion of the boundary under consideration consists of a regularly surveyed and demarcated line and it is only necessary that an annual inspection of this line should be carried out, the procedure already laid down in paragraph 6 of Revenue Circular No. 50 will be followed. No additional orders are called for in this connection, but all Collectors in whose jurisdiction such annual inspection is required should be careful to see that these orders are always complied with.

3. Where the boundary line follows the course of a river or is otherwise mutable and needs to be relaid yearly in accordance with accepted custom or the express orders of Government, this should continue to be done according to past practice, by which the local Revenue Officers of the British District and Native State concerned have usually met for the purpose in question after due intercommunication for fixing a date convenient to both sides. It is very important that the work should be finished before the end of the cold weather. The Deputy Commissioner concerned should therefore communicate with the officials of the Native State as soon as possible, and arrange the necessary meeting for the earliest possible date. In general it is to be hoped that the joint local enquiry will result in an agreement as to the line which should be laid down. But in some cases difficulties or disagreements may occur. It is necessary to provide for both contingencies. If an agreement be arrived at it should be carefully recorded in the necessary papers, which should always include a map showing the accepted line. The finding and the map should be attested by the officials on both sides. In cases in which *no* agreement can be arrived at by the officials making the local enquiry, the British official will record his own finding and the reasons for it, and will illustrate it with such maps as may be necessary. He will also ask the Native State official for a copy of the finding arrived at by the latter, and, if this is furnished, the British official will add it to his file.

4. In every case, whether an agreement has been arrived at or not, the proceedings will be submitted to the Commissioner for his decision. The Commissioner will make any enquiries which he may deem necessary from the British authorities and from the Native State, and will then decide what boundary is to be fixed. The Commissioner will communicate his decision to the Deputy Commissioner and to the Native State concerned. On receipt of the decision the Native State will, for one month, have the right to appeal against it to the Punjab Government if it should consider it necessary to do so. Similarly, the Deputy Commissioner may, during the same period, if he thinks it necessary to do so, apply to the Commissioner to submit the case for the orders of the Punjab Government, and the Commissioner will comply with such application. If neither the Native State nor the Deputy Commissioner take action as above indicated within one month of the date on which the Commissioner's decision is received, that decision will be final.

5. Where a regular settlement is in progress along the boundary line of a Native State due intimation of the fact should be given to the State by the Commissioner of the Division in which the operations are being carried on. This intimation should be to the effect that survey operations along the boundary will be presently undertaken, and that the Settlement Officer will give due notice of the date when the measurement work in each estate will actually approach the boundary, and should contain a request that the necessary orders may be issued to the proper State officials to be present both when measurements are being made and when it is desired to attest the boundary resulting from these measurements. It should also be requested that the names of these officials may be at once intimated so that the Settlement Officer may correspond direct with them in all unimportant matters connected with the subject in question. During the first stage of operations above mentioned it will usually be sufficient for the State Patwári or Kánúngo or other subordinate Revenue Officer to be present. If during the progress of this stage it is necessary for the Settlement officials to extend their work across the accepted boundary line, this should not be done until the Settlement Officer has intimated the necessity to the State and obtained their assent, or except in the presence of the Revenue officials of the State. On the occasion of the actual attestation of the boundary an officer corresponding to the rank of Tahsíldár or Extra Assistant Commissioner will be deputed by the State, and in any special case in which the Settlement Officer himself may think it desirable to be present an official of suitable rank will be sent to meet him.

The procedure to be followed subsequently in cases in which an agreement is or cannot be arrived at after personal meeting on the spot on the above occasions shall be the same as that laid down in the previous paragraphs.

6. It will be seen from paragraph 3 above that the instructions issued apply only to cases in which there is an accepted custom or rule or order governing the fixation of the boundary, and this limitation must be held to apply also to cases falling under paragraph 4. In any case in which there is no such custom, rule or order to go by and in which any new question of principle arises reference should always be made by the Commissioner of the Division to the Financial Commissioner, who will, if necessary, refer to Government.

## PUNJAB AND ITS DEPENDENCIES.

**Published by Authority.**

LAHORE, THURSDAY, DECEMBER 10, 1896.

## PART III.

## Notifications by Chief Court, Financial Commissioners, Accountant-General, &c.

### FINANCIAL COMMISSIONERS' OFFICE.

#### CIRCULAR No. 6.

FINANCIAL COMMISSIONERS' OFFICE,

*Dated Lahore, 7th December 1896.*

To

ALL REVENUE OFFICERS IN THE PUNJAB.

C. L. TUPPER, Esquire, C.S.

Attention of Revenue Courts drawn to the provision of Sections 45 (6), 69 and 70 of the Punjab Tenancy Act, XVI of 1887.

THE Financial Commissioner has in several cases found it necessary to interfere on the revision side with the decisions of the Subordinate Courts of the Province, where it was found that the Courts in suits by tenants to contest liability to ejectment or by landlords to eject tenants or enhance their rent had failed to comply with the obligatory provisions of Section 70 (1) of the Tenancy Act by which the Court is required to direct the tenant to file a statement of his claim, if any, to compensation for improvements or for disturbance and of the grounds thereof, or where the Courts had otherwise omitted to decide the question of compensation. Such omissions have repeatedly been held by the Financial Commissioner to be material irregularities calling for interference on the revision side.

2. The attention of all Revenue Courts is therefore drawn to the provision of Section 45 (6), Sections 69 and 70 of the Punjab Tenancy Act, XVI of 1887. To some of these provisions attention has already been drawn in paragraph 6 of Revenue Circular No. 17.

3. In suits to contest liability to ejectment the Court is bound, if the tenant fails to direct his ejectment by its decree. But if a Court directs the ejectment of a tenant or the enhancement of his rent, it is further bound to determine the amount of compensation due to the tenant and to stay execution of the decree until the landlord pays into Court that amount less any arrears of rent or costs proved to the satisfaction of the Court to be due to him from the tenant.

4. In complying with the obligations thus defined the Courts should not overlook as they sometimes do, the question of compensation for disturbance that is due to a tenant (other than a joint owner of the land in suit) who has cleared and brought under cultivation waste land in which he has not a right of occupancy. This description of compensation is due, in addition to any compensation for improvements, but only if the tenant is ejected from the land. The question of compensation for disturbance necessarily does not arise in enhancement suits. If a Court directs the ejectment of a tenant, but omits to decide whether he is entitled, as a clearing tenant, to compensation for disturbance, it fails to comply with the obligatory provision of Section 70 (2) of the Act, by which it is required to determine the amount of compensation, if any, due to the tenant.

5. If these directions are carefully complied with, it is hoped that the occasions for interference with the orders of the Subordinate Courts will be fewer.

By order,

HARI KISHAN KAUL,

*Junior Secretary to the Financial Commissioners, Punjab.*

**CIRCULAR MEMO. No. 4.**

FINANCIAL COMMISSIONERS' OFFICE,

*Dated Lahore, the 2nd December 1896.*

To

ALL DEPUTY COMMISSIONERS IN THE PUNJAB.

C. M. RIVAZ, Esquire, C.S.I.

Directs the opening of a separate book for entering of Director of Land Records' instruction notes.

THE Financial Commissioner has noticed that at some tahsils no record is kept of the Director of Land Records' inspection notes, while at others they are copied into the Tahsíl Minute Book. The Financial Commissioner thinks that the best plan is to keep a separate book at each tahsíl, in which, after each inspection by the Director, a copy of his notes may be entered consecutively, so that they may be available for convenient reference when the tahsíl is inspected by the District Officers, Commissioner or Financial Commissioner. It is requested that this may be done in future.

By order,

R. SYKES,

*Senior Secretary to Financial Commissioners, Punjab.*

## GOVERNMENT OF INDIA,—DEPARTMENT OF FINANCE AND COMMERCE.

## RESOLUTION.

*Calcutta, the 1st January 1889.*

READ—

Despatch from the Secretary of State for India, No. 200, dated the 18th July 1887, suggesting that the system under which in the United Kingdom advances are made by the Government for local works might with some modification be introduced in India.

Resolution in this Department, No. 2169, dated 26th April 1888.

Despatch to Secretary of State, No. 194, dated 21st July 1888.

Despatch from Secretary of State, No. 248, dated 27th September 1888.

OBSERVATIONS.—In Resolution in this Department, No. 2169, dated 26th April 1888, the question of associating Local Governments more immediately with the granting of loans from public funds for local purposes was discussed.

It was said—

2. The result of the present Indian system is that while all these loans and advances are made either by, or by the advice of, the Local Governments, those Governments are not directly interested in the financial result further than seeing that the security is adequate, and that the amount of the loan is ultimately recovered, as all loan and advance transactions take place on the Imperial accounts. If a loan or advance is irrecoverable, it is charged off as Provincial Expenditure; but as regards the punctual and complete realisation of interest, the Provincial Governments are not financially concerned.

3. With a view, therefore, to improve the present system by more directly connecting the interests of the Local Governments with the success of the local loan transactions, and to carry out the wishes of Her Majesty's Government as far as possible, the Governor-General in Council desires to extend the system of Provincial finance, so as to entrust the entire control of these loans and advances to Local Governments. The manner in which it is proposed to give effect to this proposal is as follows.

4. It is proposed to place at the disposal of each Provincial Government an advance and loan account. The principles and restrictions to be kept in view by Provincial Governments in making advances and loans from the credits afforded them should be the same as those already laid down by this Department in the orders issued from time to time. Their general effect is summarised in Chapter 7 of the Civil Account Code.

5. On the sum so credited the Local Government would pay to Imperial Revenues interest at 4 per cent. a year, and would receive all interest realised from the borrowers as an asset of Provincial Revenues. Such additional credits to the Local Loan Account as might be found necessary would be made from time to time, and, as now, Provincial Revenues would be charged with all irrecoverable loans and advances.

* * * * * * * *

9. It is not intended to include in these arrangements the loans to Presidency Corporations, but the following are included:—

I.—Advances to cultivators under various Acts, such as the Land Improvement Loans Act, 1883, or the Agriculturists Act, 1884, or on occasions of calamity for purchase of seed, cattle, &c., or for famine relief, or to tenants on Government estates. For each of these purposes Local Governments have powers of sanction as defined in Rules 5, 7 and 7 (a) of Chapter 7 of the Civil Account Code.

II.—For Survey operations, such as for erecting boundary marks or for other Survey expenditure recoverable from landholders or cultivators.

III.—Under special laws not coming within class (1), such as the Jhansi Encumbered Estates Act, or the Bengal Drainage and Embankment Act.

IV.—To landholders and notabilities apart from the provisions of any law.

V.—Advances of special Revenue Departments, such as Excise and Salt.

2. The opinions of Local Governments were invited on these proposals. These have been received and are uniformly favourable, explanations on matters of detail being only required in some cases.

3. The discussion which resulted in the issue of these orders involved the reconsideration of the policy under which it was decided to discontinue the practice of making loans from public funds to Municipal and other public Corporations. The views of the Government of India are expressed in the following paragraphs of the Despatch to the Secretary of State for India read above :—

3. It may be stated that up till 1876 loans were pretty freely made from public funds to Municipalities and other public Corporations for works of proved public utility and convenience. In 1876 the embarrassment caused by the sudden fall in the gold value of silver necessitated the adoption of measures of economy and retrenchment. Among other things, it was directed that since the means at the disposal of the Government of India for granting loans to Municipal and other Corporations and to Native States were likely to be limited so long as silver did not recover in value, no application for such loans should be made or forwarded by any Government officer except for purposes which would not admit of postponement (Financial Resolution No. 1967, dated 31st July 1876).

4. Following the principle enunciated in the Resolution of 1876, and in view of the increasing demands upon the Imperial Treasury for the capital cost of State works, the Government of India published a further explanation of its position and intentions in paragraph 30 of the Financial Statement for 1879-80 in the following terms :—

There has been a change in the policy of the Government as respects loans to Municipalities and other Corporations. For some years past these bodies have borrowed all the money which they have required from the public treasury, which could afford to lend them money rather more cheaply than they could obtain it in the open market. This plan had this advantage that the Registered Public Debt of India represented substantially the whole debt of the country, including the debts of these Corporations. But the demands upon the Imperial Treasury for the capital cost of State works are now so considerable compared with the limits of its resources that the Government can no longer afford to extend this aid to these independent bodies; and they will henceforth be generally left to borrow in the open market for themselves always under strict State supervision. The Government is, however, still pledged to some loans to these bodies which are in course of expenditure; and it cannot always thus throw Native States or the smaller Municipalities in the interior upon their own resources.

5. The operation of the principles thus announced was slightly relaxed by a Resolution No. 2448, dated 28th August 1879, which permitted the several Local Governments and Administrations to make small loans to rural Municipalities without reference to the Government of India on the conditions (i) that the amount of each loan did not exceed Rs. 5,000, and (ii) that the total amount of such loans sanctioned in a year was not to exceed Rs. 25,000 in the case of the Local Governments, and Rs. 10,000 in case of Local Administrations.

6. This policy has since been adhered to, except in very special cases. Successive Secretaries of State have declared in favour of it, and have been unwilling to sanction a departure from it even in special cases.

7. Experience has, however, shown that its rigid adoption has operated very unfavourably in delaying and preventing sanitary improvement and reform. It has been found that local bodies cannot raise money in the market except upon extravagant terms, and Municipalities and other Corporations have in several cases found it necessary in consequence to abandon or indefintely postpone well-considered schemes of drainage and water-supply. We have accordingly cordially accepted the invitation in paragraph 5 of Your Lordship's Despatch No. 246, dated 15th September 1887, to reconsider the question.

8. The enclosed Resolution, to which we have already invited Your Lordship's attention in paragraph 2, will explain that in future all loans of public money will be made on the guarantee and responsibility of Local Governments. It is obvious that under such conditions—where the responsibility for securing the punctual payment of interest and repayment of the principal devolves on Local Governments—loans will not be granted on insufficient security, or in cases where the public character of the necessity for them is not fully established. It was not the object of the policy adopted in 1876 to impede sanitary reforms in the smaller Municipalities, though it would now appear that this has been the result. As between a policy which has the practical effect of forbidding public Corporations to adopt methods of sanitary reform and the extended guarantee of the Government which is necessary to enable them to do so, there is, we submit, little room for difference of opinion. One objection to making these loans from public funds—namely, that it necessarily involved an extension of the borrowing or at least of the guarantee of Government, and thereby affected our credit—we hope to minimise by limiting the funds available for these purposes to a sum which will not appreciably raise the price at which we can borrow money.

9. We do not propose at present to adopt the policy of lending to the Presidency Corporations, as they have a public credit of their own, and they may very well continue to borrow in ordinary cases in the open market.

10. The position of the mofussil Municipalities is, however, essentially different, for practically the loan market is closed to them. If they can borrow at all, they can only do so at excessive rates of interest. We accordingly propose to change our present policy in respect of them, and to authorise Local Governments to grant loans to them in future, the three following conditions being strictly adhered to:—

*1st.*—Loans to be granted only for works in which the Government, apart from mere local interest, has a general interest, such as drainage and water-works, and not to be granted for works of purely local interest, or works which are conveniences, but not necessities, such as roads, bridges, market places, town halls, and the like.

*2nd.*—A loan to be repaid within as short a period as possible, not exceeding 30 years in any case, or 20 years except under very special circumstances, and with special sanction.

*3rd.*—A local body, having borrowed from Government, not to borrow from any other source so long as a part of its debt to Government is still outstanding.

11. We accordingly ask Your Lordship's permission to provide, if we adopt the policy o placing loan accounts at the disposal of Local Governments, for the loan of public money to the Municipalities described on the guarantee of the Local Government concerned.

4. These proposals met with the approval of the Secretary of State, who replied in the following terms:—

6. To the general policy thus described I give my cordial approval as being one calculated to facilitate the development of the smaller towns and districts without adding to the charges falling on the Imperial Revenues.

7. The expression in the 11th paragraph of your letter that the money will be lent to the Municipalities on the guarantee of the Local Government, I understand to refer to the arrangements between the Imperial and the Local Governments, and between the latter and those who borrow from them. The money for the purpose can only be raised on the credit of the Government of India, as was pointed out in Lord Cranbrook's Despatch, dated the 31st of July 1878, No. 267, as part of the general scheme of providing the funds needed for the year.

8. It is therefore essential that the total amount to be placed in any year at the credit of the several Local Governments shall not exceed that which you can afford to advance without undue interference with the other objects for which funds may have to be supplied from the balances in India, supplemented by such loans as can be raised without inconvenience in the local market. * * * * * *

9. There appears to me to be some fear that difficulty may arise from the third condition prescribed by your Government, and it will be necessary to provide that a municipal body may only borrow from other sources after having obtained the permission of the Local Government, which would not be granted unless it were clearly shown that the payment of the interest and repayment of the principal of the loan from the Government had been duly secured.

RESOLUTION.—The Governor-General in Council accordingly propose to introduce the system under which local loans will be made from resources at the disposal of Local Governments, with effect from the 1st April 1888, and has prescribed the following rules for giving effect to it:—

1. Advances and loans may be made by Local Governments and Administrations for any of the purposes enumerated below, within the limits or on the conditions defined hereafter, without reference to the Government of India:—

I.—Advances to cultivators under various Acts, such as the Land Improvement Loans Act, 1883, or the Agriculturists Loans Act, 1884.

II.—Advances under special laws not coming within class (1), such as the Jhansi Encumbered Estates Act, or the Bengal Drainage and Embankment Act.

III.—Loans to landholders and notabilities apart from the provisions of any law.

IV.—Loans to Municipal and other public Corporations (other than Presidency Corporations) for works of public utility and convenience.

2. These rules do not affect the procedure prescribed by rules under the several Acts of the Legislature for making applications for such loans or the conditions under which they may be sanctioned. The rules under the Local Authorities Loans Act, 1879, are made by the Governor-General in Council. Those rules have been modified by Notifications No. 15 and No. 16 of this date so as to transfer, except in special cases, the responsibility of deciding whether a loan should or should not be made from the Governor-General in Council to Local Governments. Local Governments should similarly take steps to revise the rules under the Land Improvement, Agriculturists' Loans, and other Acts, so as to bring them into harmony with the system now introduced.

3. Existing loans to District and Local Boards are to be included in these arrangements. The rules under the Local Authorities Loans Act, 1879, published in the Notification of the Finance Department, No. 15 of this date, contemplate the grant of loans to District Boards for works which are estimated to give a return of 4 per cent. There is, however, a difficulty in making such loans under the present system of incorporating the transactions of these Boards with the general accounts, as in their purely financial aspect the Boards merely represent an administrative arrangement of the Government for the management of such items of public expenditure as the Local Government by law or executive order makes over to them. Local revenue and expenditure are at present entered in the accounts as a portion of the general account of Government revenue and expenditure; and so long as that practice continues, local expenditure from *loan* money will necessarily be recorded as part of the general expenditure, while obviously only expenditure met from revenue ought to be so recorded. It is not, however, thought desirable to prohibit the grant of loans to District Boards in all circumstances. Under the proposed system of separating off the local transactions from the general account more completely than is at present the case, the objection that now exists will disappear. But until that separation is effected, Local Governments should arrange to restrict loans to District Boards as much as possible.

4. As regards loans to Municipalities, the special conditions to be insisted on by Local Governments before making any loan are—

*1st.*—Loans may be granted only for works of public and general convenience and utility such as drainage, water-works, bridges and the like, and not for works which are merely or mainly ornamental or convenient, such as a town hall, public garden or market place.

*2nd.*—A local body which has borrowed from Government may only borrow from other sources after having obtained the sanction of the Local Government concerned, which should not be granted unless it is clearly shown that the sum lent by the Government with interest thereon is duly secured.

This condition is, of course, enforced indirectly through the operation of the rules under the Local Authorities Loan Act, under which the Government of India now sees, and under which in future the Local Governments will see, that the assets and future resources of the borrowing body when it desires to borrow are equal to bearing the burden of a further liability as well as to discharging existing ones.

5. The following general regulations will apply to all the advances to which reference is hereinbefore made:—

(1) The advances should be repaid within as short a period as possible, not exceeding 30 years in any case, or 20 years except under very special circumstances and with special sanction.

(2) A penal rate of compound interest, not less than 6 per cent. per annum, should be enforced as far as the law allows, upon all over-due instalments of interest or principal and interest.

6. An advance and loan account will be opened with each Local Government. The account will be opened with the actual outstanding balance of advances and loans in each province on the 31st March 1888. Further sums will be placed at the disposal of Local Governments on a consideration of the available resources of the Government during the ensuing year and of the demands presented. Local Governments will also be free to utilise any repayments of loans or advances during the currency of the year in making fresh loans and advances.

7. Interest at 4 per cent. a year will be charged to Local Governments on the mean between the outstanding balance at the commencement and the outstanding balance at the close of each year.

On the other hand, Provincial Revenues will be credited with the full amount of interest received on these loans and advances, and any sums which it may be necessary to write off as irrecoverable must, as at present, be at once charged to Provincial Revenues and credited to the advance account.

8. The Local Government will arrange to receive annual reports upon outstanding loans and advances from its responsible account officer. This is already prescribed in the case of loans of Classes I and II by the Rules published with Resolution in the Finance Department, No. 6233, dated 24th November 1881, and by the Rules in Section 11 of Chapter 7, Civil Account Code, and in the cases of Classes III and IV in the orders contained in Resolutions Nos. 3587 and 3683, dated 30th September 1877, and in the orders quoted in Rules 18 to 21 of Chapter 7 of the Civil Account Code. The annual verification prescribed by Rule 5 of Chapter 71 of the Code should be also separately reported to the Local Government by the account officer, and it is upon the balances shown on the books of the account office that the interest chargeable to Provincial Revenues will be calculated.

9. Any default in the payment of interest upon a loan of public money, or in the repayment of the principal, should be promptly reported by the Account Department to the Local Government. A Local Government receiving such a report should immediately take steps to remedy the default.

10. The account adjustment of the interest will be as follows: The amount of interest received from the borrowers will be credited by the account officer concerned directly as a Provincial receipt under *XII—Interest.* The amount of interest payable to Imperial will be adjusted in the same manner as the interest chargeable to Provincial Revenues on account of Capital Expenditure on Railways and Irrigation Works is adjusted; *i. e.*, the account officer will, after the close of his March Final Accounts, calculate the amount due on the method stated in Rule 7, and debit it as a final Provincial charge under 13—*Interest on Debt*, by credit to India in his Exchange Account. The Comptroller of India Treasuries will, on receipt thereof, adjust the item by deduction from the total charge under 13—*Interest.*

11. Each account officer will accordingly prepare and forward to the Government of India in this Department, before the end of the current month, a statement of the outstanding balances of loans and advances of the nature described in Rule 1 on the 31st March 1888 and of the interest receivable on them during the year 1888-89. If interest on the mean between the balances on 31st March 1888 and 31st March 1889 at 4 per cent. exceeds in any case the interest receivable on the loans during the year, the difference will be made good by an addition, corresponding to the excess, to the Provincial assignment. No similar adjustment in favour of Imperial Revenues will be made if the reverse (as is probable) is the case, as any such benefit to Provincial Revenues may be considered to be taken against the liability of Provincial Governments to make good any sums that become irrecoverable (Resolution, Financial Department, No. 747, dated 26th May 1879). After this adjustment of the assignment on account of the initial inequality is once made no future adjustment of this nature will be made.

12. In November of each year (for the current year as early as possible and not later than 31st January 1889) each Local Government will submit to the Government of India an estimate in the accompanying form of the loans proposed to be made and the expected recoveries. Upon a consideration of the several demands and of its available resources, the Government of India will determine what sum is to be allotted for the purposes indicated, in the ensuing year, and will distribute it as nearly as possible in proportion to the necessities of each Province. It is not intended to sanction any additional allotments during the currency of a year.

(a). Details of these should be given separately in any case where a single advance of loan exceeds Rs. 25,000.

The excess of (e) over (a) must not exceed the amount placed by the Government of India at credit of the Loan and Advance Account during the current year. The excess of (k) over (e) is the amount for which a further credit is asked for from the Government of India during the ensuing year.

13. In paragraph 10 of his despatch the Secretary of State requires to be periodically informed of the loans that may be granted under the system now introduced. The transactions that will now fall under the Provincial Advance and Loan Accounts should accordingly be removed from Accounts Nos 82 and 89 of the Finance and Revenue Accounts and shown in a separate statement in which the details for each Province should be furnished. The Comptroller-General is accordingly authorized to make such modification in the form of these accounts as will enable the Secretary of State's directions to be complied with.

14. These rules do not apply to Ajmere, Coorg, Berar and the territories administered by the Agents to the Governor-General for Central India and Biluchistan.

RESOLUTION.—Under the Resolution in this Department, No. 13 of this date, Local Governments and Administrations have been vested with the control and management of loans granted from public funds to Local Bodies excepting Presidency Corporations, and rules have been prescribed for the exercise of such control.

2. In accordance with the intention expressed in the Resolution, the rules in force under the Local Authorities Loan Act, 1879, prescribing the procedure in respect of applications for loans or the conditions under which they may be granted, have been revised so as to transfer the responsibility of deciding whether a loan should or should not be made from the Governor-General in Council to Local Governments. The new rules are contained in the Notifications of this date, Nos. 15 and 16.

3. The classes of loans and advances which have been brought under the operation of the Resolution are—

I—Advances to cultivators under various Acts, such as the Land Improvement Loans Act, 1883, or the Agriculturists' Loans Act, 1884;
II—Advances under special laws not coming within class I, such as the Jhansi Encumbered Estates Act, or the Bengal Drainage and Embankment Act ;
III—Loans to landholders and notabilities apart from the provisions of any law ;
IV—Loans to Municipal and other public Corporations (other than Presidency Corporations) for works of public utility and convenience.

4. Advances under the Land Improvement and Agriculturists' Loans Acts are regulated by rules passed by each Local Government with the approval of the Governor-General in Council. These rules should be revised, as far as may be necessary, by Local Governments, so as to bring them into accord with the new system.

5. Loans under the Jhansi Encumbered Estates Act can be granted under existing orders by the Local Government, and no change in them is required.

6. The Bengal Drainage and Embankment Act prescribes that advances under the Act can be made by the Local Government from public funds with the sanction of the Governor-General in Council. As such sanction will not be necessary in future, the Act should be amended so as to bring it into accord with the new system.

ORDER.—Ordered, that this Resolution be communicated to the several Local Governments and Administrations (except Hyderabad).

Ordered also, that it be communicated to the Revenue and Agricultural Department, and to the Home Department, with a copy of the Resolution of 24th November 1887, No. 6233.

Ordered further, that it be published in the *Gazette of India.*

From—R. A. GAMBLE, Esquire, Under-Secretary to the Government of India, Finance and Commerce Department,
To—The Secretary to Government, Punjab.

IN paragraph 5 (1) of the Resolution in this Department, No 13, dated the 1st January 1889, it is stated that advances made under the Local Loans Scheme "should be repaid within as short a period as possible, not exceeding 30 years in any case, or 20 years except under very special circumstances and with special sanction." Instances having come to notice in which advances repayable in 30 years have been granted without obtaining the sanction of the Government of India, I am directed to explain that the special sanction referred to in the orders quoted was intended to be that of the Government of India. To make that intention clear the clause quoted will be rewritten as follows :—

"(1) The advances should be repaid within as short a period as possible, not exceeding 20 years, except with the sanction of the Government of India, which will be granted only under very special circumstances."
